Jack Stehn

Data Scientist

San Francisco, California • jack.stehn@protonmail.com • www.linkedin.com/in/jack-stehn • github.com/jstehn • greenwolf.me

PROFESSIONAL SUMMARY

Data Scientist blending rigorous social science research with production-grade engineering. I work across the full ML lifecycle, turning complex data into actionable insights and deploying explainable predictive models that drive measurable outcomes.

EXPERIENCE

Data Scientist / Customer Delivery Engineer (Contract)

Mar 2026 — Sep 2026

Innovare

- **K-12 Student Data Quality:** Worked across school partners' student data, including assessment scores, grades, and attendance. Validated it end to end, from source systems to final reports, and wrote automated data tests to catch errors before they reached educators.
- **Analytics Layer Stewardship:** Owned the correctness of the EdTech analytics layer, keeping metrics and dashboards trustworthy.
- **Stakeholder-Ready Insights:** Delivered presentation-ready analyses that turned raw data into decisions for school leaders.
- **Customer-Facing Analysis:** Diagnosed data quality and metric discrepancies for customers, using statistics to find root causes.
- **Workflow Automation:** Automated recurring analytics workflows, shifting team time from manual report production to exploratory analysis.

Data Scientist (Lead: ML, Data Engineering, MLOps) - Ed Pioneers Fellow

Sep 2024 — Oct 2025

Caliber Public Schools

- **Predictive ML & Risk Modeling:** Developed and deployed explainable ML models (Logistic Regression, Deep Learning) to predict staff turnover. Engineered a 'Risk Tolerance' configuration allowing non-technical leadership to adjust precision/recall thresholds based on quarterly hiring capacity.
- **Strategic Leadership (Solo Data Lead):** Owned the full data lifecycle (DS, DE, ML) as sole data scientist, partnering with the C-suite.
- **Survey Design & Enrichment:** Enriched staff surveys with demographic, location, role, grade, and tenure data for segmented insights.
- **Data Democratization:** Designed data literacy trainings so school leaders could access attendance and academic metrics on their own.
- **Stakeholder Management:** Partnered with leadership on high-impact, data-driven solutions; presented findings to stakeholders including the Board of Directors.

Data Scientist (ML, NLP, Causal Inference)

Aug 2021 — Feb 2023

SetSail

- **Production ML (Revenue):** Deployed Propensity Scoring and Churn models, using NLP on email metadata to find sales signals.
- **Business Impact:** Contributed to product enhancements that achieved 33% faster ramp times, 16% higher revenue, and 15x customer ROI.
- **Causal Analysis:** Ran causal inference studies isolating the sales behaviors that drive outcomes, steering the product roadmap.
- **Technical Consulting:** Diagnosed data discrepancies for enterprise customers and proposed architectural fixes.

Data Science Research Team Lead

Sep 2020 — May 2021

UC Berkeley School of Public Health

- **Leadership:** Led data science for mixed-methods studies on equity and public health (violence against homeless youth); managed a team of undergraduates.
- **Unstructured Data:** Analyzed qualitative interviews, geospatial data, text corpora, and hand-drawn maps, developing novel data processing approaches.
- **Geospatial Analysis:** Used ArcGIS to identify and visualize spatial violence patterns for non-technical stakeholders.
- **Visualization:** Created interactive dashboards (Tableau, Plotly) to communicate findings to stakeholders.

EDUCATION

University of California, Berkeley

Aug 2019 — May 2021

Bachelor of Arts in Data Science (Domain Emphasis: Quantitative Social Science)

GPA: 4.00/4.00

Highest Distinction (Summa cum laude). Outstanding Data Science Undergraduate Award (Top of Class).
