Jack Stehn

Machine Learning Engineer | Data Engineer | Data Scientist

San Francisco, California • jack.stehn@protonmail.com • www.linkedin.com/in/jack-stehn • github.com/jstehn • greenwolf.me

PROFESSIONAL SUMMARY

High-agency Data Professional blending rigorous social science research with production-grade engineering. I architect end-to-end data systems, from raw ingestion to deployed predictive models, and bring a software engineering mindset to data teams.

EXPERIENCE

Data Analytics & Customer Delivery Engineer (Contract)

Mar 2026 — Sep 2026

Innovare

- **K-12 Student Data Quality:** Worked across school partners' student data, including assessment scores, grades, and attendance. Validated it end to end, from source systems to final reports, and wrote automated data tests to catch errors before they reached educators.
- **Enterprise Customer Delivery:** Managed data pipelines and delivered presentation-ready insights for enterprise accounts, turning raw data into decisions for non-technical staff.
- **Data Architecture:** Helped design a Medallion (bronze/silver/gold) architecture on BigQuery and proposed an open-source stack (Terraform, dlt, dbt, Dagster, Cube.js) to replace ad-hoc workflows.
- **Workflow Automation:** Automated manual customer delivery workflows, reducing turnaround time and freeing engineering capacity for analytics work.

Data Scientist (Lead: ML, Data Engineering, MLOps) - Ed Pioneers Fellow

Sep 2024 — Oct 2025

Caliber Public Schools

- **Strategic Leadership (Solo Data Lead):** Owned the full data lifecycle (DS, DE, ML) as sole data scientist, partnering with the C-suite.
- **Predictive ML & Risk Modeling:** Deployed explainable staff-turnover models with a 'Risk Tolerance' setting for leadership to tune.
- **Modern Data Stack Architecture:** Architected a scalable platform on GCP. Orchestrated ELT pipelines using Dagster, dbt, and dlt to ingest data from disparate SIS and HR platforms.
- **Engineering Maturity (ROI):** Engineered a comprehensive People Team data pipeline, reducing manual consistency checks from months of collective annual work to seconds.
- **Survey Design & Enrichment:** Enriched staff surveys with demographic, location, role, grade, and tenure data for segmented insights.
- **Data Democratization:** Updated the data security policy and built data literacy trainings so school leaders could self-serve metrics.

Data Scientist (ML, Data Engineering, MLOps)

Aug 2021 — Feb 2023

SetSail

- **Business Impact:** Contributed to product enhancements that achieved 33% faster ramp times, 16% higher revenue, and 15x ROI for customers.
- **Production ML (Revenue):** Deployed Propensity Scoring and Churn models, using NLP on unstructured email metadata to identify sales signals.
- **Pipeline Architecture (AWS):** Led a critical overhaul of the AWS data infrastructure. Implemented 'SQL Push-down' strategies and asynchronous DAGs, reducing data processing latency by 75%.
- **Causal Analysis:** Ran causal inference studies isolating the sales behaviors that drive outcomes, steering the product roadmap.
- **Engineering Best Practices:** Championed the adoption of CI/CD pipelines (GitHub Actions), unit testing (pytest), and Agile methodologies.

Data Science Research Team Lead

Sep 2020 — May 2021

UC Berkeley School of Public Health

- **Leadership:** Led data science components for mixed-methods studies on equity and public health. Managed a team of undergraduates.
- **Unstructured Data:** Analyzed diverse unstructured and non-traditional datasets requiring the development of novel data processing approaches.
- **Geospatial Analysis:** Performed geospatial analysis (ArcGIS) to identify and visualize spatial patterns for non-technical stakeholders.

EDUCATION

University of California, Berkeley

Aug 2019 — May 2021

Bachelor of Arts in Data Science (Domain Emphasis: Quantitative Social Science)

GPA: 4.00/4.00

Highest Distinction (Summa cum laude). Outstanding Data Science Undergraduate Award (Top of Class).
